Screening Providers

Offer Your Clients Customized Drug Testing Policies.
Here's How.

Compliant Policies Covering:

- ▶ Medical Marijuana
- ▶ Recreational Marijuana
- ▶ CBD Oil
- ▶ Policy Purpose
- ▶ Specimen Types
- ▶ Testing Procedures
- ▶ Legal/Prescription Drugs Department of Transportation (DOT)
- ▶ Mandatory State Drug Testing Laws
- ▶ Workers' Compensation Denial/Reduction
- ▶ Unemployment Denial
- ▶ Workers' Compensation
- ▶ Premium Discounts
- ▶ ADA
- ▶ Prohibited Conduct
- ▶ Consequences
- ▶ Liability

Current Consulting Group's customized policies cover all of the applicable critical areas above and more.

Keeping Current

- Every year hundreds of bills are introduced that could impact workplace drug testing programs in some way.
- Bills are passed every year pertaining to medical and/or recreational marijuana legalization, in addition to adjustments to existing marijuana laws.

Third Party Administrators (TPA)

Providing a template policy to your clients is no longer acceptable as a full service TPA. As an industry we hear time and time again from employers that they rely on you to provide best-in-class recommendations and full program administration. Customized policy service can not only provide your company with a broader Substance Abuse product portfolio, it strengthens your position in the market while making you a consultative partner to your clients. How many of your competitors can say that?

And...it is an easy way to increase revenue without any increase to staff or requiring a full time compliance expert on staff.

The How

- Current can work with your clients directly or behind the scenes.
- Provides invaluable subject matter expertise on state drug testing laws and policy.
- Simple, easy to implement program that you can begin immediately.

Current Partners

With our clients to market their services through co-branded fliers, co-hosted educational webinars and CurrentCompliance.org. We help you become a consultative resource to your clients in the fast-paced, ever changing drug testing industry.

We Make It Easy!

Let our professional consulting team show you how quickly and affordably we can begin providing customized policy services to your existing clients and help you win business by making it available to your prospective clients.

Compliance Services

Screening Providers

Leaving Your Customers Wanting More?

Drug free workplace programs require so much more than testing, but few screening providers offer all of the services their clients need for a compliant program.

Partnering with Current lets you confidently say, "Yes, we can do that".

Training and Education

- Current offers online, live, remote, and on-site training that meets DOT regulations and non-DOT laws in all 50 states.
- Our online training portal can be custom branded and accessed through your existing client platform.
- With Current's compliance services, your screening company transforms from "just a testing company" to a true compliance and substance abuse testing partner.

Mock Auditing/Assessment Services

Non-compliance is a costly mistake. To avoid big fines, it's essential for employers to regularly verify that their program is compliant. Current delivers nation-wide, in-person "mock" audits for all DOT agencies and can assist employers with staying in compliance with documentation, logging, and reporting requirements.

In addition to Current's well-known policy services and state drug testing law database, Current provides the training required by the DOT and many states' FWP requirements. Our Mock Audits can help to prevent fines and penalties, providing peace of mind for both regulated and non-regulated clients.

EXPANDING OFFERINGS

Partnering with Current expands your Occupational Health service offering, increases revenue, and improves client engagement.

INDUSTRY LEADERS

With over 150 years of combined experience, Current's tenured team of consultants provide services with the depth of expertise your clients have been asking for!

WE MAKE IT EASY

Current's compliance services are simple to add to your product line. Launching the standard services requires no up-front investment.
